Cable Cutter

(ratchet action)

IEC 60900 DIN EN 60900

- For cutting copper and aluminium single conductors as well as multiple stranded cables
- Not suitable for steel wire, wire ropes and fine-stranded (highly flexible) conductors
- Precision-ground, hardened blades
- Clean and smooth cut without crushing and deformation
- One-hand operation using ratchet principle
- Little handforce required due to very high transmission ratio
- Two-stage ratchet drive for easy cutting
 Simple handling as a result of low weight and compact design can be used even in confined areas
- Pinch guard prevents operators' fingers being pinched
- High-grade special tool steel, forged, oil-hardened
